

MINIONS

The Exciting, New, & Interactive Licensed Ride

JOLLY ROGER

MINIONS

The Exciting, New, & Interactive Licensed Ride

New and Exciting Licensed Ride

Jolly Roger is pleased to introduce the fantastic two-seater "Minions" ride, ideal for children in the 3 – 7 years age group.

Interactive Play

Minions is a long lasting global sensation, and children will get a chance to join the adventure on the futuristic Minions car, complete with fully licensed Minions sound effects.

Featuring none other than "Bob the Minion" riding on the back, and allowing up to two children to ride up front in this exciting 360-degree-panoramic view interactive ride, kids will have a ride to remember!

Features

The ride can be fitted with a mechanical or electronic coin acceptor for virtually any currency, note readers, contactless facilities or swipe card, or a combination of any two.

Durable Glossy Material

The ride is manufactured in a durable gelcoat, which provides a high quality glossy finish.

Safety Standards

Jolly Roger is owned by Photo-Me International.

All of the Photo-Me children's rides conform to the relevant safety standards and Photo-Me is a member of the British Amusement Catering Trades Association (BACTA) and the Amusement Devices Inspection Procedure System (ADIPS). Safety is also a major concern during the survey and installation process.

Benefits To The Site Owner

Installing a Photo-Me Kiddie Ride provides substantial revenue at no additional cost. Our rides encourage parents with young children into retail environments and therefore increase shopper footfall.

Rides can also help reduce the stress of shopping with young children. By creating a child friendly environment, parents are more likely to stay longer at retail as they combine shopping and entertainment.

A ride can also help to increase sales of associated merchandise within the store. This ride will be a colourful addition to any retail environment and will keep your customers coming back!

Technical Specifications

Dimensions: L: 1750mm W: 940mm H: 1560mm
Weight: 130kg
Standards: CE
